The 1950 plan for decentralized production of spare parts for tractors and agricultural machinery was fulfilled 71 percent for spare tractor parts and 54 percent for spare parts for agricultural machines.

Individual oblasts of the Uzbek SSR fulfilled the 1950 gross production plan as follows:

	<u>Percent</u>
City of Tashkent	104
Tashkent Oblast	98
Fergana Oblast	105
Namangan Oblast	108
Andizhan Oblast	107
Samarkand Oblast	102
Bukhara Oblast	98
Kashka-Dar'inskaya Oblast	103
Surkhan-Dar'inskaya Oblast	103
Khorezm Oblast	101
Kara-Kalpak ASSR	92

The industry of the following oblasts, while completing the gross production plan, failed to meet the plan for output of the items indicated: city of Tashkent -- cotton picking machines, mowing machines, cotton seeders, locomotive and railroad car repair; Andizhan Oblast -- electric power; Kashka-Dar'inskaya and Surkhan-Dar'inskaya oblasts -- local construction materials and footwear.

In 1950, utilization of equipment in the machine-building, cotton-ginning, oil-extracting, and other industries was improved. However, in these industries there are still great reserves of capacity for a further increase in production. Consumption of raw materials, fuel and power per unit of production decreased in comparison with 1949 in many branches of industry. The republic's industry fulfilled the plan for decrease in production costs.

As a result of the increase in the tractor park in 1950, the volume of tractor work increased 14 percent over 1949.

The sowing of cotton in 1950 was completed at the most favorable time. The quality of cotton cultivation was improved, and improved types were introduced.

In 1950, kolkhozes and sovkhoses in the republic had high cotton yields and completed ahead of schedule the state plan for cotton procurement. More cotton was delivered to state warehouses than in 1940. More than 80 percent of deliveries were of select and first-grade cotton.

Preparations for the spring sowing of 1951 are being better carried out than they were in 1949. Thirty-seven percent more plowing has been done for the spring sowing than in 1949 and 17 percent more plowing for cotton than in 1949. However, the plan for plowing has not been fulfilled.

Fall and winter repair of the tractor park in the fourth quarter 1950 was successfully carried out by the MTS of the Ministry of Cotton Growing. The MTS of the Ministry of Agriculture has lagged in the fall-winter tractor repairs.

The 1950 plan for capital construction was fulfilled 83 percent by both Union construction projects and Union-republic, republic, and local projects. Individual ministries fulfilled the capital construction plan completely unsatisfactorily: Ministry of Light Industry -- 80 percent; Ministry of Meat and Dairy Industry -- 83 percent; Ministry of Irrigation -- 78 percent; Ministry of Health -- 81 percent; Main Administration of Fish Industry -- 67 percent.

In 1950, more housing was put into service than in 1949, but the housing construction plan was not fulfilled. In 1950, extensive construction of dwellings, social and cultural, and economic projects was carried out on kolkhozes. The total volume of capital construction on kolkhozes considerably increased over 1949. Many houses, schools, medical institutions, clubs, administrative buildings, barns, etc., were completed this year.

The Tashkent Railroad System fulfilled the 1950 loading plan 100.1 percent, but failed to meet the plan for loading of petroleum products, coal, and ore. Average daily loading on the system increased 9 percent over 1949. In comparison with 1949, car turnaround time was decreased, but the plan for car turnaround was not fulfilled.

The Ministry of Automobile Transport Uzbek SSR exceeded the 1950 plan for passenger transport, but fell considerably short of the 1950 plan for freight haulage.

The Administration for the Utilization of Small Rivers for Transport fulfilled the 1950 plan for freight haulage in ton-kilometers by 115 percent.

The 1950 plan for retail trade turnover was fulfilled 102 percent. Chief trading organizations fulfilled the plan as follows:

	<u>Percent</u>
"Uzbekbriyashu" (Uzbek Union of Consumers' Societies)	111
Main Trade Administration, Ministry of Trade Uzbek SSR	89
Main Administration of Department Stores	97
Main Administration of Special Foods Stores	100.4

The sale of the following products in particular increased: fabrics, garments, footwear, confectionery, sugar, tea, meat, fish, cultural and sporting goods, including radio receivers, phonographs, motorcycles, and bicycles.

In 1950, the number of workers and employees in the republic increased 6 percent over 1949.

The number of students in schools under the universal education system increased 3 percent in 1950 over 1949, while the number of students in the seventh to tenth grades increased 30 percent. The number of students graduating from the tenth grade in 1950 increased 42 percent over 1949, while the increase in the agricultural schools was 62 percent.
